PROFESSIONAL SUMMARY

Web developer with experience in both Front-end and Back-end tasks. I perform efficiently in areas such as API creation, database management, version control, application deployment, and web design. I am known for being responsible, organized, and adaptable to different work environments. I am currently seeking a job opportunity as a programmer that will allow me to continue growing professionally and contribute value to the company.

KEY ABILITIES

- **Back-End technologies:** JavaScript with Node.js (Express), PHP with Laravel, JAVA
- **Front-End technologies:** React, Vue.js, HTML5, CSS3 and libraries such as Mantine, Bootstrap and Tailwind
- **Databases**: MySQL, PostgreSQL, MongoDB
- **Version management**: Git, Jira, BitBucket

WORK EXPERIENCE

Web developer (Back-end) (February 2025 - May 2025)

- Back-end management using PHP and SuiteCRM, with libraries such as domPDF and the use of external APIs
- CRM support
- Client relationship management, including meetings, active listening, and problem solving
